PROFESSIONAL SUMMARY

BCA graduate with hands-on experience in full-stack web development, Python, and computer vision projects. Skilled in building responsive web applications, implementing real-time AI solutions, and writing clean, maintainable code. Passionate about solving real-world problems through technology and eager to contribute to scalable software development in a collaborative engineering environment.

EDUCATION

Bachelor of Computer Application
Uttaranchal University, Dehradun

Aug 2023 – June 2026
CGPA: 8.59

INTERNSHIP

WEB DEVELOPMENT AND DESIGNING INTERN

OASIS INFOBYTE

Duration (June 2024–July 2024)

- Built responsive and cross-browser compatible web interfaces using HTML5, CSS3, and JavaScript.
- Designed and implemented interactive UI components to enhance user experience.
- Identified and resolved UI bugs, improving responsiveness and overall user experience.
- Optimized website layouts for desktop, tablet, and mobile devices.
- Collaborated on web development projects while following industry best practices.

PYTHON PROGRAMMING

OASIS INFOBYTE

Duration (July 2025–Aug 2025)

- Developed multiple Python-based desktop applications using modular programming principles.
- Applied Object-Oriented Programming, file handling, GUI development, and debugging techniques to build reliable applications.
- Improved coding efficiency through reusable functions and structured project organization.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

GitHub:

- Designed and developed a fully responsive portfolio website with a mobile-first approach, ensuring compatibility across desktops, tablets, and smartphones.
- Built reusable UI components and implemented clean, maintainable code following modern front-end development practices.
- Enhanced user experience through smooth scrolling, animations, interactive navigation, and optimized page layouts.
- Improved website performance by minimizing asset sizes, optimizing CSS and JavaScript, and reducing page load time.
- Applied semantic HTML, accessibility standards, and SEO-friendly structure to improve discoverability and usability.
- Version-controlled the project using Git and GitHub, enabling efficient source code management and future enhancements.
- **Technologies:** HTML5, CSS3, JavaScript
- **Tools:** VS Code, Git, GitHub

FACE RECOGNITION SYSTEM

- Engineered a real-time face recognition and authentication system using OpenCV and the LBPH algorithm for secure identity verification.
- Designed a modular application architecture separating image capture, model training, recognition, and user interface to improve maintainability and scalability.

- Optimized image preprocessing and feature extraction, reducing recognition latency and improving prediction accuracy undervarying lighting conditions.
- Implemented automated dataset generation, model training, and classifier updates to streamline the enrollment process.
- Integrated age and gender prediction modules using Deep Learning (OpenCV DNN), enhancing the overall functionality of the application.
- Improved application performance through efficient memory management, optimized image processing pipelines, and reduced redundant computations.
- Implemented robust exception handling, camera validation, and logging to ensure reliable execution and easier debugging.
- **Technologies:** Python, OpenCV, NumPy, Tkinter
- **Tools:** VS Code, Git, GitHub

TECHNICAL SKILLS

Programming Languages:

- Python | JavaScript | SQL

Frontend:

- HTML5 | CSS3 | Bootstrap | Responsive Design | DOM Manipulation

Tools:

- Git | GitHub | VS Code

Database:

- MySQL

Core Concepts:

- OOP | Debugging | Problem Solving | Version Control

SOFT SKILLS

- Problem Solving
- Leadership
- Communication
- Adaptability

CERTIFICATIONS

- Web Development and Designing
Oasis Infobyte | 2024
- BYTE 1.0 Participation
Uttaranchal University
- Python Programming
Oasis Infobyte | 2025

EXTRACURRICULAR

- Lead Management, IT Utsav 3.0 – Successfully managed and coordinated the “Code Ke Boss” event, overseeing planning, execution, and team collaboration.
- Event Coordinator, Byte Event 2.0 (Programmers’ Day) – Assisted in organizing and coordinating the event, ensuring smooth execution and active participation.
- Core member of the club “Code Ke Boss”

INTERESTS

- Learning Emerging Technologies
- Open Source Projects
- Building Real-World Software Applications
